And Makes an Address on Perseverance at the Exercises Commemorating the Evacuation of Camp by Washington's Army—Chautauqua Salute by Audience.

NORRISTOWN, Pa., June 19.-President Roosevelt visited historic Valley Forge last night to call upon Attorney-General Knox and this afternoon he attended services in Washington Memorial Chapel, where exercises commemorating the 126th anniversary of the evacuation of the camp ground by Washington's army were held. Mrs. Roosevelt, her sister, Miss Carew: Senator Knox, his wife, daughter and son and daughter's flancé were in the party, as well as a dozen Secret Service men. The President's party leaves to-morrow morning, driving to Devon where it will take a private car on the Pennsylvania Railroad for Washington, expecting to ar-

The President's theme was continuity and perseverance in well-doing in national affairs. He said it gave him great pleasure to say a word in behalf of the project to erect a memorail chapel of Washington. Valley Forge and Gettysburg, said he, were the two great crises of the revolutionary and civil wars, and both were located in Pennsylvania. The importance of the achievements in both wars and how their objects dovetailed together for American

objects dovetailed together for American advancement were set forth.

"One founded, the other saved," said the President. "The lives of Washington and Lincoln were vital to the nation. They are ideals for our young men, for they lived that the nation might grow steadily better. They saved the State without striking down liberty. Gettysburg stands for a tremendous effort, Valley Forge for long sustained effort, where Washington and his army fought, not against a foreign foe, but against privations and discouragements, discontent and heart burnings arising from defeat and disaster, but they conquered because of their steadfastness and daily endeavor to do a duty well.

"The vital thing for this nation to do is steadily to cultivate the quality of Washington, the quality of sticking to it. A primary national need is commemorating the names of the men who did for the nation and profit by these great lives, which is

the names of the men who did for the nation and profit by these great lives, which is the only homage which is really worthy of them. Washington and Lincoln stand not for glory, but for duty done.

"A man to amount to anything must be practical, he must do things; not cavil at others who are striving, and mayhap go down in the strife. A man must have a strong will and a high ideal."

When he concluded, the President, with a wave of his hand, quelled an outburst of applause, as not fitting in a house of worship.

Other speakers were ex-Attorney-General Other speakers were ex-Attorney-General Wayne MacVeagh, Congressman Wanger and Bishop Coleman of Delaware. The chapel where exercises were held is a one story frame building which serves as a temporary place of worship while a memorial chapel to Washington, the churchman, is being erected under the supervision of the Rev. W. Herbert Burke of the Episcopal Church. He presided and was assisted by the Rev. S. Harvey Fisher and the Rev. Herbert Cook.

All day thousands of people from a score of miles around hung about the estate to catch a glimpse of the President's party, but not until he went to the church did they see him. Before leaving the church the President congratulated and shook hands with the preachers and members of the choir. While being driven away he gave those assembled a lusty good-by, which was greeted with a Chautauqua salute.

mium, merit, task, or contract system, under penalty of expulsion. When the convention was held business was brisk in all the shop trades and there was a demand for men. Now work in all the open shop trades has been growing duller and a general cut in wages is going on all along the line, followed by reductions in the working force. These cuts, as a rule,

COMMENCEMENT AT CORNELL. The Right Rev. David H. Greer Delivers

the Baccalaureate Sermon. ITHACA, N. Y., June 19 .- Commencement Reek at Cornell University was begun to-day, when the baccalaureate sermon was delivered in Sage Chapel by the Right Rev. David H. Greer, S. T. D., assistant to Bishop Potter. The large auditorium was crowded with members of the senior class and their friends. Dr. Greer gave the young men a practical present-day talk, contending that the world to-day was enloving a high degree of prosperity and that this new and greater success demanded new and higher duties from young men who were about to go out into the world. He denied earnestly that "the rich are growing richer and the poor poorer" in this moneyed age, and appealed to his audience of college men that they should go out into the world looking upon the brighter side of this ge

Wm. Barnes Wins 85 Bet from Congressma Sherman—Sec'y Shaw Tells a Story.

CHICAGO, June 19 .- William Barnes of Albany county approached Congressman James S. Sherman in the corridor of the Auditorium Annex this morning and said "Jim, I'll bet you \$5 that I can get all the tickets to the convention that I want for every day it meets."

Mr. Sherman pulled from his pocket a roll of money that made him look like a native, and peeled off a five dollar note Mr. Barnes matched it from his wallet, and the \$10 were put in the hands of a newspaper man standing near.
"Now, go ahead and get your tickets," said Mr. Sherman.
"Why, you see I don't want any," replied

The price agreed upon between those higher up and the saloon keepers for keeping them open is \$29 a week No one in town except the interested parties knows why the price was fixed at this sum. The saloonkeepers would be willing to pay \$30. It would be less trouble than to make the change, but the price is \$29, not a cent more or less.

Ex-Senator Henry J. Coggeshall of Oneida county, N. Y., arrived here yesterday. "In all my experience, and I have been

"From Oneida county we used to send troops and battalions of spectators to the conventions, but only one man besides myself has come. I don't understand it at all."

There are no saloons and no sample rooms in Chicago. Every barroom is called a buffet, and those familiar with New York buffets are surprised when they find that the name they have learned to associate with one kind of a drinking place is here applied to another.

The handsome entrance and the street front of the building look like those of any theatre closed for the summer season. The building is to be redecorated and opened as a vaudeville house. Most people in Chicago think it will be avoided by the public because of the fire. It has been suggested that it might be turned into a hospital.

Kenesaw Mountain was private secretary to Walter Q. The Weather.

The pressure increased yesterday in the Atlantic States and the centre of high pressure dropped more to the south, making it warmer instead of cooler as predicted in the Middle Atlantic and New England States. The temperature ranged be-tween 80 and 90 degrees in these districts: it was also much warmer, with summer heat in the North-west and the Lake regions.

Fair weather prevailed generally, save for a few

Predicts Again That the Candidate Nomi-York's Candidate—Going to Make an Anti-Parker Speech To-night.

William Jennings Bryan arrived in town rom Chicago last night. He was accompanied by M. F. Dunlap, who is one of the Illinois managers of the Hearst forces. Their coming together, Mr. Bryan said, was only a coincidence.

Mr. Bryan is here primarily to attend the anti-Parker convention at Cooper Union to-night. He is to be the feature of the convention and his admirers are looking for a great speech from him. He said last night that it would be extemporaneous This morning Mr. Bryan is going to New Haven about the Bennett will litigation and he may get back to dine at the City Club with M. G. Palliser.

Frederic W. Hinrichs of Brooklyn also will speak to-night. The chairman of the will speak to-night. The chairman of the convention will be Justice Seabury. Joseph McGuiness, A. J. Boulton, Gustave Thompson and William A. Coakley will be the other speakers. After the speeches a committee of fifty will be appointed to carry the protest of the convention against Judge Parker to St. Louis.

Mr. Bryan reiterated last night a statement that he has made before, that no man who didn't follow him in 1896 could be the Democratic candidate. Mr. Bryan intimated that that fact settled Mr. Olney. As to the fight against Parker, Mr. Bryan

"The delegates instructed against Parker and those uninstructed will control the St. Louis convention and they will agree on a platform and on a candidate which will suit the Democrats of this country. It won't be the New York platform and it won't be New York's candidate. Who it will be I can't say. There are a lot of good men, but, as I've said before, I don't care to discuss candidates. I have from time to time laid down some general propositions which apply to a number of men conspicuous in this campaign and that is all I care to say. There is nothing in the Cleveland movement." The delegates instructed against Parker Mr. Bryan was told that Charles F. Murphy

Mr. Bryan was told that Charles F. Murphy was reported to still be of the opinion that there was and he quickly replied:

"Perhaps, then, I ought to take back what I said. Of course, the fact that a man did support the ticket in 1806 is not the only qualification he must have. His views must accord with the principles of the party." Mr. Bryan was asked if it was true, as

"I think I shall have the right of any delegate to speak out if I want to."

BLOW AT PARKER IN TEXAS. Senator Balley Refuses to Go as a Delegate to St. Louis.

Austin, Tex., June 19.-The positive announcement by Senator J. W. Bailey that he will refuse to go to the national Democratic convention as a delegate at Democratic convention as a delegate at large or as a district delegate, has caused consternation in the ranks of the Parker supporters in Texas. It had been decided that Bailey should lead the Texas delegation and it was expected that he would throw his influence to Parker, although it has been known all along that he was not an ardent advocate of the candidate's nomination.

He has favored Gorman until recently, when he pledged his support to Parker in a half-hearted manner, on the ground that the Judge is the most available man. It is now said that Senator C. A. Culberson will likewise decline to be sent as one

Brooklyn, died in St. Mary's Hospital, yesterday morning, of blood poisoning. Father Gallagher was born in County Down, Ireland, 48 years ago. His parents were intimate companions of John Loughlin, who subsequently became the first Bishop of Brooklyn. Father Gallagher was ordained on Dec. 20, 1878, and a few days later became assistant to the Rev. Sylvester Malone in Sts. Peter and Paul Church, Williamsburg, In 1888 Bishop Loughlin assigned him to the pastorate of St. Michael's Church in South Brooklyn. When he took charge of this parish he found it in a deplorable condition. He immediately began the work of raising a fund for the erection of a new church building. The new building when completed will have cost \$225,000, and it was Father Gallagher's wish to live long enough to see his work accomplished. Father Gallagher is survived by a brother, the Rev. Col. Marshall J. Smith, the oldest insurance man in New Orleans, died in that city yesterday at the age of 80. He was a native of Warrenton, Va. On his father's side he was related to George Washington, and on his mother's side to John Adams. He was appointed midshipman in the United States Navy in 1841. He was graduated from Annapolis in 1845, served on the frigates Raritan and Cumberland, and participated in the siege and capture of Vera Cruz, andresigned from the navy in 1849 on account of ill health. Moving to Mobile and finally to New Orleans in 1854, he embarked in the cotton business. He organized the Crescent Regiment in New Orleans, and was its Colonel at the battle of Shiloh, where it was cut to pieces. He was made Colonel of artillery, and was in command of the Confederate heavy artillery at Port Hudson, when besieged by Farragut and Banks. He was captured at the surrender of Port Hudson, imprisoned at Fort Helenry and Fort Delaware, but was finally exchanged. He served for one year in Lee's army around Richmond, but was finally sent by the Confederate Government to Canada on a special mission. Returning to New Orleans he embarked in the insurance business, which he had followed for the last forty years.

HOW TELISSU WAS WON.

Gen. Oku Sends Detailed Account of the Victory.

Special Cable Despatch to THE SUN Tokio, June 19.-More details of the fighting at Telissu have been received from Gen. Oku, commanding the second Japanese army. He began his advance from Pulandien last Monday, his centre following the railway, his right following the Tasha River, and his left marching along the road from Kukiatung. The cavalry followed the road from Pitaewo on the extreme right. All the troops drove in Rus-

sian outposts. On Tuesday the Japanese left reached Nakialing, and the right joined the centre seven miles south of Telissu. To ascertain the Russian positions, they advanced to a line connecting Gangkiatung and Changkistung, southwest of Telissu, and maintained an artillery duel from 3 o'clock in the afternoon until sunset. The Russian position west of the hills rendered charges and artfilery work difficult. Ordering the right to defend stoutly its position and the heights due south of Telissu the right centre advanced under cover of darkness and occupied a position opposite the Russian

Wednesday morning was foggy. The centre's artillery at 5:30 o'clock opened a flerce duel with the Russian left centre north of the Fuchow River. After flerce fighting the Russians were compelled to fall back slightly.

Meanwhile a detachment of infantry and artillery had been hastening since dawn along the Fuchow road. At 9:30 o'clock this detachment occupied the heights west of the Japanese left centre, and cooperating with it, despite a galling cannonade from the Russian heights, charged through the defiles and scaled the hills, driving the Russians from their position.

While this movement was being carried out the Russians flercely attacked the Japanese right, which it was necessary to reinforce twice from the reserves. The right wing of the right column was especially imperilled, when the cavalry, moving through a long valley to the extreme east, turned the Russian left and completed the enveloping movement.

Still the Russians fought stubbornly, and being reinforced by their rear guard through the railway defile between two high hills in their rear, charged repeatedly to gain the day. At 3 o'clock in the afternoon, however, they began to retreat through the defile and were disordered by a following fire.

The nature of the ground rendered pursuit impossible. The Japanese camped on the field. During the day the extreme left column

covering the left wing on the north, ambuscaded 800 retreating infantry. The Russians had twenty-five battalions

of infantry, seventeen squadrons of cavalry and ninety-eight guns. They left 600 dead and wounded in front of the Japanese right Three hundred Russians were captured. Prisoners report that the commander of the first division was seriously wounded, and the commander of the First Regiment killed. They also state that the com-

manders of the army corps and the Second and Third Regiments were wounded. The Japanese casualties were about 900. Two captains and six other officers were

Special Cable Despatch to THE SUN. St. Peterseuro, June 19 .- Regarding the battle of Wafangkou, several Russian correspondents, including the novelist Dantchenko, state that the Japanese for the first time showed themselves barbarians, horribly mutilating wounded Russians.

Gen. Simonoff drew up a report on the subject, which was signed by the English, French and Spanish Military Attachés with the Russian army. According to this report the Japanese cut up wounded Russians terribly with their bayonets, battered them to pieces with clubbed rifles, and gouged out their eyes with swords.

AID FOR RESERVISTS' FAMILIES. Russia Will Give It Even Where no Mar- Linen riages Exist.

Special Cable Despatch to TER SUN.
ST. PETERSBURG, June 19.-The military authorities in the districts of St. Petersburg. Moscow and Kharkoff, where the staffs are preparing for departure for Manchuria, where they are due to arrive in August, are gravely considering the failure of the tactics hitherto employed against the Japanese Generals.

The necessity for providing for the famiies of the reservists required to complete the three army corps now being mobilized has resulted in a decision by the Govern ment to recognize and pay the claims of the reservists' women and children although no marriage ties exist. The Government will only require evidence that the reservis has been summoned to the army and that he had previously contributed to the woman's and children's support. Such claims have heretofore been disallowed by the Russian courts, but they are now placed on a level with the claims of legitimate wives and offspring. The Govern ment's action does not create civil mariage, which is still illegal.

The payment of these claims from the public purse will lessen the distress resultng from the mobilization. Prince Yetthersky announces that the scale of pay ment in many peasant districts will be only six rubles monthly for each married woman and three rubles for each child not working. In other districts the payments will be less This is one of the many evidences of the

beens from the Fatherland. Frankel went to the place last December, and rented a room on the third floor. He got a job as porter in the office of the American News Company.

His little dark room was littered with the works of Goethe, Schiller, Kant and other German authors, and he talked of founding a socialistic community. Letters from his relatives in Schoeneberg, a suburb of Berlin, found in his room after his death, indicated that his family was of good standing. In a large album, found in his trunk, was a photograph of Frankel in military uniform, marked "Seventh Infantry, Frankfort-on-the-Oder." Other photographs in the album were of distinguished looking men and women.
